

NICK JAQUITH

front end developer • dngr.co

267.496.7103 • braverydanger@gmail.com

profile • **A loyal workhorse**, student of human behavior, and technically proficient engineer of interaction. With a background in the visual arts, and a steadfast love for code I develop applications with clear objectives, clean lines, and a penchant for getting the job done.

portfolio • <http://dngr.co>

experience • **Neiman**

Philadelphia, PA

Sept '10 – present

Developer

Responsible for the front end development of the majority of Neiman's digital work. Current with emerging trends in JavaScript, HTML, and CSS in order to efficiently produce well-designed, highly visible websites and applications.

- Winner of Gold Addy Awards for:
paproblemgambling.com
controltonight.com
- Received high accolades for work with Neiman's internal R&D department, **Neiman Labs**

Ingram Digital

Philadelphia, PA

May '08 – Sept '10

Application Developer

Wrote succinct, object-oriented JavaScript as well as clean, semantic HTML & CSS to develop and design the front end for Ingram's digital audio library.

- Designed and developed Ingram's content management system for uploading and maintaining audio and sales resources
- Successfully implemented a full, front-end audio editing system using the JavaScript (HTML5) Web Database spec

iofy corporation

Philadelphia, PA

Jan '07 – May '08

Webmaster & Art Director

Administered iofy's web presence and marketing materials. Worked with a team of developers to produce an expansive library of audio applications.

- Built and maintained iofy's website, as well as dozens of secondary marketplaces
- Created several corporate content and user management systems

Freelance

everywhere

'06 – present

Development & Design

Working with a variety of clients to deliver efficient, easy-to-maintain websites and online solutions.

education • **BFA, Illustration**

Rhode Island School of Design — June 2004
